PROJECT DESCRIPTION

The four core subjects will comprise the LearnCore: English, Mathematics, science, and Filipino. Each subject will have its own corresponding tasks and be incorporated with learning materials, lecture videos, and fun quiz so that the users will be more engaged in answering. Moreover, we will ensure that the interface will be comprehensive and easy to use, keeping in mind that kids will use this.

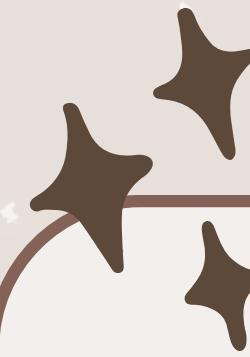

OBJECTIVE

This Interactive Learning System aims to:

- Establish a solid foundation in the four core subjects
- Make sure that students will learn in a fun, entertaining, and interactive environment
- Enhance the fundamental learning of students and prepare them for complex lessons in the future

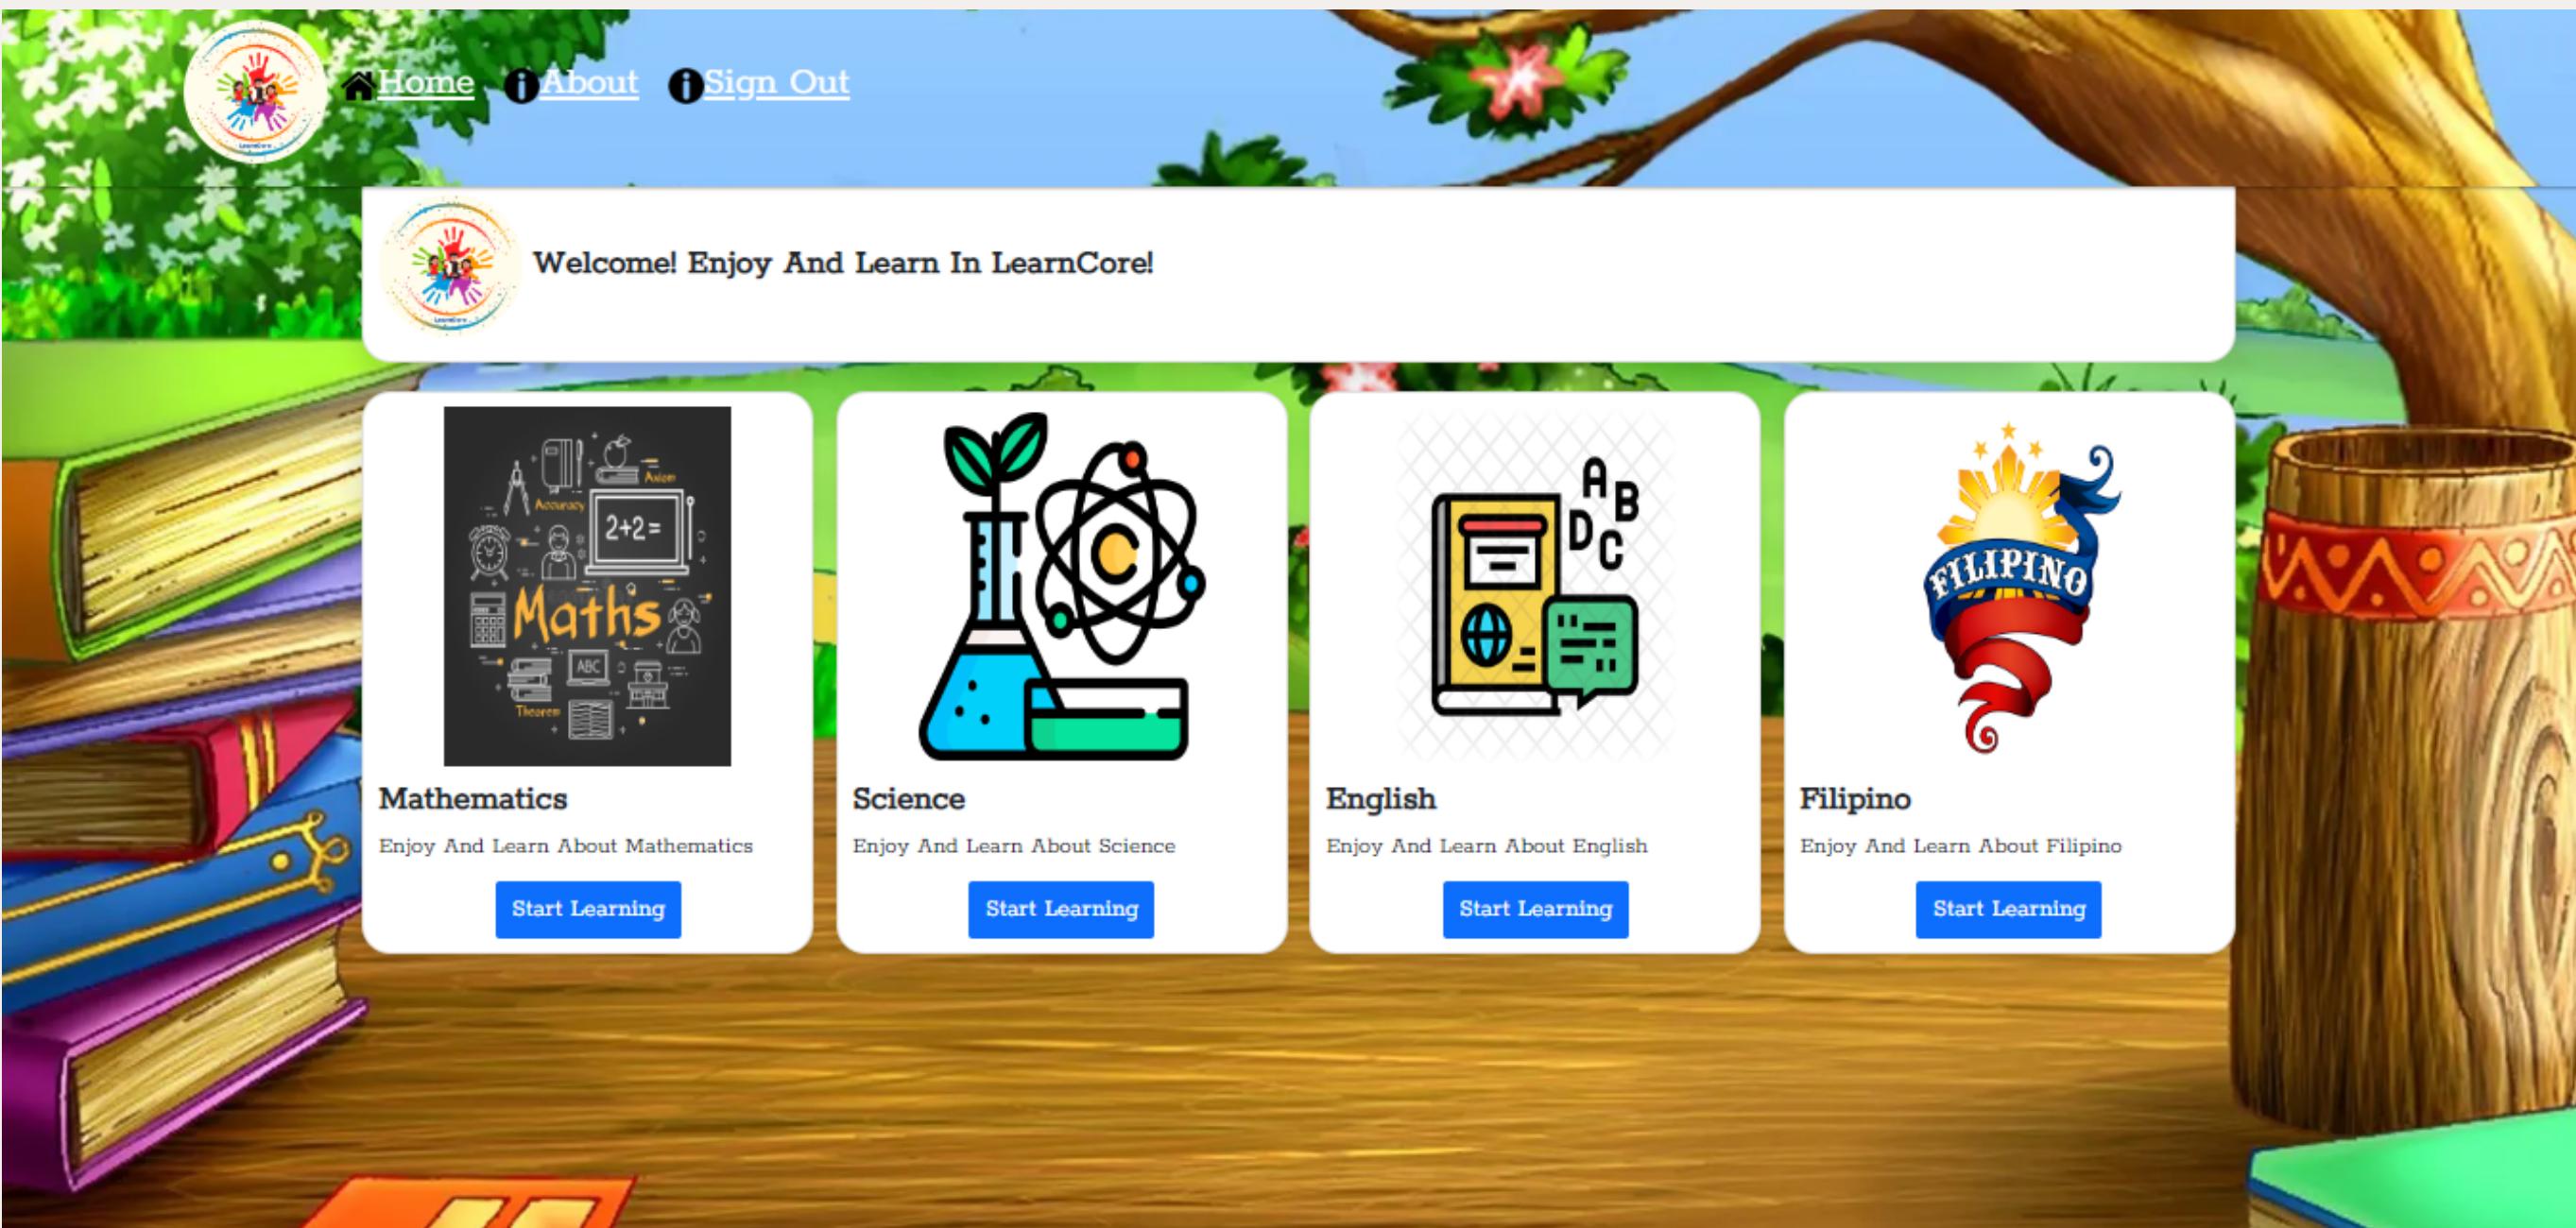

FINAL OUTPUT

FINAL OUTPUT

FINAL OUTPUT

The image shows a screenshot of a children's educational application. The background features a colorful illustration of a tree, books, and a landscape. At the top left is a circular logo with a colorful design. The top navigation bar includes 'Home' and 'About' buttons.

MATHEMATICS

- Addition**: Enjoy And Learn About Addition. [Start Learning](#)
- Subtraction**: Enjoy And Learn About Subtraction. [Start Learning](#)
- Multiplication**: Enjoy And Learn About Multiplication. [Start Learning](#)
- Division**: Enjoy And Learn About Division. [Start Learning](#)

Comparing Numbers: Enjoy And Learn About Comparing Numbers. [Start Learning](#)

Multiplication Table: Enjoy And Learn About Multiplication Table. [Start Learning](#)

SCIENCE

- Solar System**: Enjoy And Learn About Solar System. [Start Learning](#)
- Animals**: Enjoy And Learn About Animals. [Start Learning](#)
- Plants**: Enjoy And Learn About Plants. [Start Learning](#)
- Human Body Parts**: Enjoy And Learn About Body Parts. [Start Learning](#)

Photosynthesis: Enjoy And Learn About Photosynthesis. [Start Learning](#)

Simple Chemistry (Equipments): Enjoy And Learn About Experiment. [Start Learning](#)

FINAL OUTPUT

The screenshot shows the English learning section of a mobile application. At the top, there's a navigation bar with icons for Home, About, and a search function. Below it, the word "ENGLISH" is displayed in a large, bold font. The main content area features several learning modules arranged in a grid:

- Alphabet**: Enjoy And Learn About Alphabet. Includes a large "ABC" icon and a "Start Learning" button.
- Spelling**: Enjoy And Learn About Spelling. Includes a "Spelling" icon and a "Start Learning" button.
- Language**: Enjoy And Learn About Language. Includes a "Language" icon and a "Start Learning" button.
- Writing**: Enjoy And Learn About Writing. Includes a "Writing" icon and a "Start Learning" button.
- All About Nouns**: Enjoy And Learn About Noun & Pronouns. Includes a "Nouns & Pronouns" icon and a "Start Learning" button.
- Adjectives**: Enjoy And Learn About Adjectives. Includes an "Adjectives" icon and a "Start Learning" button.

The background of the app features a cartoon-style tree and books.

The screenshot shows the Filipino learning section of the same mobile application. The layout is similar to the English section, with a "FILIPINO" header and a grid of learning modules:

- Alfabeto**: Enjoy And Learn About Alfabeto. Includes an "Alfabeto" icon and a "Start Learning" button.
- Pagbasa**: Enjoy And Learn About Pagbasa. Includes a "Pagbasa" icon and a "Start Learning" button.
- Patinig**: Enjoy And Learn About Patinig. Includes a "Patinig" icon and a "Start Learning" button.
- Katinig**: Enjoy And Learn About Katinig. Includes a "Katinig" icon and a "Start Learning" button.
- Diptonggo**: Enjoy And Learn About Diptonggo. Includes a "Diptonggo" icon and a "Start Learning" button.
- Klaster**: Enjoy And Learn About Klaster. Includes a "Klaster" icon and a "Start Learning" button.

The background of the app features a cartoon-style tree and books.

SUMMARY

LearnCore is a fun and informative interactive software which students will enjoy using while learning at the same time. It focuses on the four core subjects which need to be focused on to help students build a good foundation in these subjects. This would be interactive learning software and a child friendly interface. Each subject would have different topics covered which are important and discussed in every grade level from Grade 1 to 3.

THANK YOU
